

altitude

Height-adjustable flexible desking

Imperial

Office furniture

general specifications

All desking tops are manufactured using 25mm thick MFC and 2mm PVC heavy duty edging tape.

All corners to these tops have been radiused with only one joint in the edging tape.

Both the A1 and A2 Desking bases/under-frames carry the 'Strength, Durability and Stability' test approvals.

		Canadian Maple	CM
		Walnut	N
		Silver	S
		Santiago Cherry	SC

Trim

All desk bases/under-frames come in a silver finish.

Packaging

Desk is supplied flat packed for assembly on site, with detailed instructions. The legs/bases are packed separately.

Please check building access is adequate to receive goods.

altitude

The Altitude Desk System is a revolutionary addition to the Imperial Office Furniture range. Entirely electronically operated and requiring no mechanical adjustments, with the flick of a switch you can adjust the height of your desk to suit any user.

The perfect solution for multi-user offices, hotdesking or shift-working environments. Altitude enables you to personalise your desk space to suit your own ergonomic requirements. It's the ideal choice for disabled or wheelchair-bound users, to whom other office ranges may not be accessible.

Away from individual workspaces. Altitude gives extra flexibility to communal office spaces: fax and printer tables can be adjusted time after time according to the needs of your workforce. And even if you do spend every day at the same desk. Altitude can be the ultimate in workspace luxury, allowing you to adjust your desk to suit your posture - not the other way around!

Sturdy and reliable, Altitude boasts a two-button system that safeguards against accidental operation. Choose between a cantilever leg-base or central column, and add any table-top from our selection for a workstation that will transform the way you work.
